Fabricated Charges, Fabricated Video, Unlawful / Wrongful Arrest – 1 Disorderly Conduct, 1 Reckless Driving

8-14-26 Around 12pm, I noticed on the way back from the food bank by rose st / west main I was heading south on Hamilton towards stewart ave. A red car turned from a side street in front of me, I thought nothing of it, then I noticed the Oklahoma plates and lifted up my secondary dash cam I use to film things that are not right in front of my main dash cam, and as soon as I did the car sped away and appeared to be trying to get away from me, I hadn't even left the stop sign on Hamilton and 10th so im not sure why they would appear to do that, again I still chalked it up to coincidence. Then I got to stewart and they had turned the way I needed to go towards my house on Thomas. I got close enough cause now the car had slowed down and I was able to pass it at normal speed limit so I did, at the spot just past Columbus ave where the road merges to one lane (I passed the car and was getting over in the main lain by the side street that is right there, I think daisy st), as I was passing I grabbed my second dash cam to document in film the plate and then if I could see the driver, I would get that as well, I simply held the phone up like you would if you are talking on speaker phone on the side. The driver looked over at me as I passed and looked to be talking to someone or something, or he was yelling at me and I didn't know it.

I got to the stop light at lozier and stewart and noticed he was yelling out the window at someone or at me, so rolled down the window and stuck my second dash cam out the window facing towards the back of my car to film what was going on and then he made it clear he was mad at me for "filming him" of which, im not sure how he would have known I was filming prior to that, other than I can prove I am being spied on in a psycho way with thermal imaging and on my phones so everything I do is MONITORED 24/7 365 days a year for 5-6 years now. So I told him calmly and not yelling but loud enough he could hear me since he was yelling already, I said "I don't know what you are talking about, im filming with my dash cam, STOP CONTACTING ME" he persisted and I simply said "stop contacting me" several times. Then the light turned green and I drove forward at a normal pace and filmed with my phone facing back still sitting on my drivers side window sill rest. The driver continued to yell at the top of their lungs from the stop light to when I stopped in the road right before our driveway, the driver was screaming for me to "PULL OVER" almost like he thought he was a cop and he was acting crazy for sure. Acting as though he/she wanted to get violent already from his car window.

I stopped and he kept screaming and I kept saying "stop contacting me" and then I said "stop stalking me" cause not only did it appear as though he/she is part of the same gang that has been stalking me online, espionage on my phone, and massive theft of my intellectual property and fraud, it also appeared as though he/ she was stalking me as he followed me onto Thomas and wasn't going that way after he/she got back into the car and left after. So then the driver got out of the vehicle and was acting violent and mentally ill still acting like me filming was "illegal or something and that he/she was the victim of some crime from me".

I said one more time STOP CONTACTING ME AND STOP STALKING ME OR ILL CALL THE SHERIFF AND I THEN DROVE FORWARD about 50 feet so that he/she could not get to my car window as I have no desire for an altercation and I am not going to argue weather me filming from a public roadway and in my own car is legal. Then he went back to his car and I pulled in the ditch in front of my house and got out and went and unlocked my gate so I could pull in and park. I parked and realized my phone filming all of it had died and I guess lost the video cause it was only a 2 minute ordeal from start to finish and it only

saves at 5 minute mark. My dash cam didn't get any good view as it sat and had shutdown from heat during my drive. I turned one back on and filmed him still standing down at the log cabins where he/she pulled in and parked and was lurking and looking at me from behind his car… I then went inside and dealt with my business and that was that.

8-19-26 around 12pm I went outside and the sheriff was in the driveway and saw me and said I was under arrest then again acts like they need to run over to me, and sneak up on me, and treat me as though im some ex convict or some hardened criminal that has some record of violence and or evasion, or flight risk or anything of the sort… Just like last summer ramming my car when they hadn't told me I was under arrest, as can be seen from the video last summer with the SETUP / ENTRAPMENT AND FALSE RESTRAINING ORDER BS, when they say im under arrest I SUBMIT TO THE ARREST REGARDLESS OF HOW ILLEGAL THEIR ARREST IS AND WHAT NOT…. They then refused to again, TAKE ANY INFO FROM ME OR EVEN TELL ME WHAT THEY WERE THERE FOR, THEY JUST CLAIM IM ARRESTED AND WANT ME TO CLIMB OVER THE FENCE, and in fact MADE ME DO IT, OR IM GUESSING THEY WOULD HAVE COME OVER AND ASSUALTED ME AND THROWN ME OVER THE FENCE…

Then they told me and I protested to the charges, and told them exactly what happened which is this, this is exactly told him, I also then told him I know you are part of the gang and much more, they then put me in the deputy car and then was talking to the sgt and acted like they needed to ask me what happened and still did nothing to even be bothered to look into my claims or look at any videos I have, nothing… They claim they have a video of me stopping in the road and getting out of my car and I think he might have said I yelled… I still don't know what he talking about as IT DIDN'T HAPPEN WHICH MEANS THEY AND OR THE PERPS WHO ARE THE STALKER, SPYING, STEALING GANG WHO ALSO DO FRAUD ARE FABRICATING A VIDEO TO LOOK LIKE ME IS THE BEST I CAN FIGURE…

I can submit my phone for the data showing my travel and the fact that I followed all traffic laws and all laws that day… I didn't not even speed and I didn't get out of my vehicle and yell… That I can prove as well.

They are trying to frame me up with the DA is the best I can figure, they are trying to "build a case on me" yet I can prove the sheriff office and deputies are USING THE SAME STOLEN PRIVATE WORKS OF MINE AND MORE, from where I sit and my evidence, they are THE SAME GANG… weather they are the kingpins or just thug enforcers is TBD, but I can prove they are part of it at minimum.

Its more mental illness to be caught and trying all these criminal attacks on me to pretend and frame me up as the "criminal". Its also now an attack on my ability to drive by trying to give me "reckless driving" which if convicted would SKYROCKET MY CAR INSURANCE AND TAINT MY CRYSTAL-CLEAR DRIVING RECORD AND ALL I EVER HAD BEFORE WAS A SPEEDING TICKET FOR LIKE 15MPH OVER LIMIT 20 years ago….

The sheriff keeps stealing my property from me too. Its small items but its still theft…

The first time they arrested me in 2025 on the fraudulent perjury based RO they lost or never gave me back my pocket knife, 20$ value now this time they took the CARTRIDGE OFF MY VAPE PEN AND THROUGH IT IN THE TRASH, it was bought less than 12 hours before, $12 value. They love to nickle and dime me to death and do petty theft on me, I can prove the gang has been doing similar petty theft from me locally as well.

The timing of this coincides with me moving forward on my lawsuits as always. I keep learning and getting more money and to the point where I am only days away from being ready to launch lawsuits and restraining orders associated with said lawsuits. It clear cut attacks by the gang that I am getting ready to sue in an attempt to stop or block me from being able to sue them or get any kind of relief or reimbursement for their infractions against me and such.
