Fraud Tactics Used

1. Fake Back date on a new video on websites like youtube, tic toc, rumble, facebook, twitter, telegram, etc
2. Replace an old video with a new video that has new lyrics in it that are based on my stolen private story or from my private unreleased works or from our released works
3. Claim in title or video that its “old” from a certain date etc, by putting it in the title, or thumbnail, and or saying in the video, also trying to talk about things that are old as if they were new and just happened, Hollywood style scripted cover stories
4. New popup channels with fake back dates, fake old videos, fake subs, views, comments etc
5. Making sure to post the new video with a fake old date that is older than I have documented on the channel, for example, I could only get SNL channel list down to 11 years, and then he kept posting new fake old videos with my current stolen IP at the 12 year mark or older… until he got caught in 2026
6. Post the tarot video then delete it or make it private, only the “tarot readers” have done this tactic so far.
7. Hiding videos behind a paywall on patreon, and members only on youtube etc
8. Fake back dates on books and website registration
9. Deleting or blocking the wayback machine from tracking the items on your channels and such
10. Blocking me from being able to record the whole channel list on channels with video counts over 8k
11. Blocking the ability to document, google is blocking the ability to record phone calls cause it’s a big part of my evidence, now they are trying to block the ability to record the screen and get the internal audio on my own phone, the only way is with the microphone setting to pick up my voice and everything, not just the item Im watching or listening to.
12. CGI, Makeup, Masks and Body doubles to make the new video look like it must be old cause the actor or singer “looks” younger in the video
13. Photoshop editing of pictures, photos, thumbnails, photoshoots, etc
14. Using old equipment to make it look legit old but was just filmed on old equipment
15. Manipulative editing, using legit old broll and or scenes mixed in with NEW SCENES with my ip in it.
