Interactions with Jackson County Sheriff Office / Medford Police over the last 48 months approx. dates.

I can also prove that almost all of these instances coincide with moves I am making in documenting their crimes, blocking their illegal espionage, blocking their local stalking, blocking their shakedowns by private corps, when getting ready to file restraining orders, and lawsuits. Like clockwork mean to "chill me" or Intimidate me the victim of the crimes they were duly informed of repeatedly since January 2025.

On top of that, for my whole life prior to this I have only had maybe a dozen or so interaction with cops other than traffic stops when I was 18-22 cause of my defunct cars and long hair, and those interaction were generally me calling to report crimes I had witnessed or occasionally crimes against me, and the one wrongful dui when I was 20 and the disorderly conduct for nothing much in 2016 which again it fits the same pattern as their gang / sheriff mix of attacking people. That story is in our audio recordings on https://rico.hawkx.xyz .

I also emailed the sheriff and deputies a more detailed description of what was going on at first 22 months ago with the DA and state police etc. then emailed the sheriff again earlier this year. And then I sent a formal cease and desist to them 7 days before they arrested me and started fabricating charges on me 7/24/26

JCSO / MPD (listed in order I remember them happening off the cuff)

1. 2023 – MPD – Swat team up the road on Thomas, Threats of jail for walking on the street shoulder to film what was going on as a journalist / first amendment right. Brad (the previous owner of 1281 thomas) stalked me a minute after I went out he walked up with a mask on, the neighbors there were all acting weird and like some cop helpers or something. Looking back its obvious it was their first attempt to set me up with their street gang cousins
2. 2023 – JCSO – Brad & Lisa were "fighting" and the medical and fire dept showed up. I went over as a concerned neighbor to see what was going on and lisa acted like im was a criminal or trespassing I guess cause the fire dept guy started rushing at me and shooed me off like I was doing something illegal. Then said he was going to call the cops when I told him he wasn't a cop and im not doing anything illegal. The sheriff showed right back up and then harassed me and acted like he wanted to arrest me for nothing and asking me if "im high" as a form of slander and trying to paint a picture of me that is 100% FABRICATED…
3. 2024 – JCSO I called them to report illegal spying, cyber stalking, stalking, copyright theft, and a little more. The list was much smaller then. Now I have evidence of around 20 different crimes being done by around 2k names.
4. 2024 – JCSO Showing up at brad & lisas house for some unknown issue with the DEA
5. 2024 – JCSO showed up at brad & lisas house for a raid on the house, and they seemed overly interested in what I was doing.
6. 2024 – JCSO showing up at brad & lisas house cause brad had been kicked out directly cause I said I would call the DEA and report that he is clearly a meth dealer and he moved out a few

days later. And again staring at me, trying to mean mug me from brads driveway, they seem to be very interested in me in every single instance from this point on.

7. 2025 – MPD – showing up at brad & lisas for brad being there again and when I came outside their was 4 MPD officers standing in brads driveway staring at me and trying to mean mug me and then engaged with me from across the street with loud voices.. It ended when I asked them "how the freemasons were doing"….
8. 2025 – MPD – Loitering on the road stopped up the road a few houses and other times farther up the road looking my direction
9. 2025 – JCSO – Pulling someone over in front of sams house and impounded the car
10. 2025 – JCSO Called to report josh had stolen my internet router that I had in the house and refused to give it back to me. I had to press the issue to get the sheriff to do anything, he kept telling me I "needed to just eat the cost and buy a new one" they are constantly trying to use the SHERIFF AND COURTS (FINES) AS A FORCED SHAKEDOWN ON ME BY THEIR RING LEADER TRUMP, and other kingpins.
11. 2025 – JCSO – Called out here for josh by karen wanting him to leave cause he was crashing out from a drug induced mental break
12. 2025 – JCSO – Called out here by josh for me raising my voice about their crimes in my yard (that's when I started informing the sheriff, they were not legal reasons for them to come out here and josh was fabricated stories aka false police reports on me
13. 2025 – JCSO / MPD / FIRE DEPT– Called out here by josh for me having a bbq to cook my food after they intentionally shut my power off in the hottest month and made my servers go down and my internet useless, it was a targeted attack to make me not have my websites up while they did what happened next
14. 2025 – JCSO Showed up to server a restraining order placed by my mother based purely off fabrications and spin, etc. coerced and backed up by the organized crime ring street gangs and JCSO deputies who are really just more members of the street gangs.
15. 2025 – JCSO Called out here by me on the way back from the courthouse after serving the RO and arrested me cause I parked In my parking spot to wait for the sheriff to explain the situation again and I tried but again HE REFUSED TO SEE EVIDENCE INSTEAD WANTED ME TO TELL HIM THE "STORY", I didn't want to cause I know they wont listen, but I did anyway and informed him of all that was going in a condensed version and still nothing. My words are literally ignored and everyone else's lies and fabrications are treated as pure truth, its cause it's a TARGETED ATTACK ON ME AS I HAVE STATED MANY TIMES BEFORE ONLINE AND IN PRIVATE RECORDINGS FOR 18 MONTHS EVER SINCE JOSH STOLE MY MODEM AND I GOT SUCH RESISTANCE AND THEY KNEW I HAD NO MONEY FROM THEIR ILLEGAL SPYING AND STALKING ME.
16. 2025 – JCSO - Called out here by Joshua the day after I got out of jail cause I accidently got too close while trying to have my aunt help me get my dogs out of the hot trailer. Of which jill was working with the cops to do a bad job and try and set me up for failure in many ways listed out in other pdf files sent with this one. The sheriff had given me the run around all day and was

clearly trying to force me into getting my dogs out another way so they could come arrest me and act like it was a “legit arrest”. They then rammed my car and pulled their guns on me and hadn’t even told me I was under arrest yet and I wasn’t going anywhere. Its all targeted to make me look like im some criminal or problem etc. Ive caught the JCSO slandering me the same as the rest of the gang local and online to substantiate this bias / discrimination which is based on the fact that I have evidence of their organized crime rings atrocious crimes.

17. 2025 – JCSO – Jail – 2 weeks incarcerated based off of fraudulent restraining order that I accidently got to close to trying to get my property and dogs out of. That’s all it was.. what they did in jail was out of control and illegal as all getup.

18. 2026 – JCSO I called to report stalking and espionage and theft again cause I was moving forward on the cases again and they had started doing more aggressive stalking and had someone do a burnout on the end of the road a couple hundred feet away from me late at night so I called to start documenting it. After this call when was ready to call and report more instances of it happening with the neighbors they called first to try and frame me up and make it look like they the “victim”. Josh, matt, jose, farm stand, Nathan, and robbery battery dude across the street all called before I could get the call out. Within minutes.

19. 2026 – JCSO – I called for theft of my street protest sign saying “thieves” “terrorists” “rico” “stalkers” meant to inform the public of what was going on because the local neighbor had started cyberstalking my website and stealing from it and using it on his marketing sign just like the rest of the online youtube gang that are in other states and even other countries.

20. 2026 – JCSO – Pulling someone over in front of sams house and impounding the car less than a year later. Looked staged and scripted and looked like it was a street gang member, then when the impound wrecker showed up he used the car to back in to my sign and was caught on camera trying to destroy it, with the help of the sheriff as an “accident” they failed. And Robert burton was sure to be out there filming as he has been caught doing many times when the sheriff comes to try and set me up or entrap me. As those have failed, they have started just stalking outright and trying to fabricate charges on me with the same street gang and foreigners that are the neighbor stalkers.

21. 2026 – JCSO Called out here by josh cause I was raising my voice calling out the crimes of theirs and asking the new neighbor who showed up with evidence of cyber stalking my websites and copying my business plastered on their trucks. Jim Deboer Sign dude, Nathan Deboer Car Cleaning & Black widow trucks dot com. Used my private words back at me and threats of arresting me again. Informed the cops it was false reports as Im not doing anything illegal and I reported I was being stalked and pointed to my sign and the website and still got nothing but threats of arrest

22. 2026 – JCSO Called out by sams tenant or cousin fellow gang member I believe is named matt and joses food cart, This time cause I said something to them when they came out when I came out to put my sign away, I can prove they have come out to “do something else” after I came outside around 200 times if not more. And that is just in a few months’ time Informed them to cease and desist coming out here to harass me based off false police reports. Threatened me

with arrest if I posted the video of matt exposing himself to me in the front yard last summer while peeing in public in his front yard. I have it on video.

23. 2026 – JCSO / County Commissioners – I emailed them a formal cease and desist notice for stalking, espionage, aiding & abetting, co-conspiring to commit crimes against me and more. 5 days later I posted info on their crimes on the front page of hawkx.xyz and 2 days later they showed up to arrest me when I called on the neighbor dude stealing my phone out of my hand.
24. 2026 – JCSO Called out by me for robbery & battery when the new neighbor number 2 across the streets contractor ripped it out of my hand cause I dared to ask if he has a "business card" or a "business name" then when he got evasive and aggressive I asked him "if he had something to hide" he then came over to me and got in my face and after a few choice words exchanged he ripped it out of my hand and would not give it back so I grabbed it and took it back… The sheriff hung up on me with the same bs so I called back to 911 and asked for a supervisor and the dispatch started playing the games they do every time I call them so I gave them an earful of the crimes that you were engaged in. They then showed up to arrest me like a felony raid for disorderly conduct (based on what I don't know, no one has even told me or sent me a police report or anything) and misuse of 911…. Again, not sure how that could even be stretched to be those.
25. 2026 – JCSO – called out after I got back from jail that day by the other new neighbor Nathan deboer to claim he was being stalked by me or I guess the call was for disorderly conduct again for me just talking in my driveway about their crimes while they stalk me every time I come outside but then want me to get in trouble for my first amendment right on my own place of residence… Its part of the data points for their MENTAL ILLNESS…
26. 2026 – JCSO – Showed up to arrest me for disorderly conduct and reckless driving. Refused to look at my videos, refused to do any investigation as I said I didn't do it, then said they had a video, which I know is fabricated cause I didn't do anything illegal that day either. I informed him again that it was a fabricated video and called out / reported the crimes happening to me again to try and get it on record again. They just ignore it, pretend they cant hear it, or berate me and slander me as a defensive measure.
