Hello Mam or Sir,

I have been the victim of crimes from an organized crime ring and now that I have been reporting them I have been the victim of crimes from the Jackson county sheriff office and district attorney's office as a form of retaliation cause they know im getting ready to sue them and cause they don't want to go to prison or get sued for their crimes. I am in desperate need of a good attorney to help me resolve this so I can get my lawsuits filed and the restraining orders filed against the people doing the massive crimes against me for 4 years or more now. **I can't describe the level of undue stress and wasted time this had done to me over the last 4 years either, and I can prove the last 22 months of it. THEY ARE INTENDING TO CAUSE ME DISTRESS…**

I am in fear for my life from the organized crime ring and now in fear for my life and wrongful imprisonment and arrest again from the JCSO and DA here in Jackson county Oregon. I am being railroaded and using every trick in the book to game the system to make it near impossible for me to even get a fair shake or trial. Like not posting the charges until Friday before the pretrial date that very Monday. I got the letter saying I needed to show up Monday afternoon… I called Wednesday and there was nothing on the docket with my name. They did these little tricks to try and KEEP ME FROM BEING ABLE TO GET LEGAL COUNSEL LAST TIME when I was in jail from them entrapping me with an ROV based off a completely fraudulent and malicious restraining order filed by ailing mother who is being coerced and or bribed / extorted to do the RO in the first place.

It would appear I am being held hostage by the JCSO and DA's office because I have evidence on their gang and am getting ready to sue and file restraining orders, plus because I sent a cease and desist to the sheriff and commissioners 7 days before the fabricated charges started. They are also SANCTIONING CRIMES TO BE COMMITTED AGAINST ME, they have refused to press charges on those who do crimes against me, Theft by Joshua, Theft by Farm stand, Brandishing by MAGA stalker, Robbery / Battery by new neighbor's gang cousin contractor, Stalking by josh, matt, Nathan, etc. I informed them of the cyber stalking and theft and fraud as well. They have refused to levy any charges or even look at my evidence and will not do an investigation to find out. Its because they ALREADY KNOW WHATS GOING ON, THEY KNOW THEY ARE GUILTY ORGANIZED CRIME RING, THEY KNOW IF THEY "LOOK INTO IT" IT WILL SHOW THEIR GANGS CRIMES.

I am looking for a criminal defense attorney to look at my evidence and the case and then file a motion to dismiss the case based on the fact its fabricated, retaliatory, discriminatory and is a violation of my civil rights. They are TRYING TO ATTACK MY FIRST AMMENDMENT RIGHT for two reasons.

1. I'm a journalist.

2. Because I am exposing their crimes and blocking their stalking by talking about it.

They are trying to criminalize everything I do because they can't get me to self-destruct or something. These people are all mentally ill, their words and their actions against me have shown this, their methods and the level at which they have tried to force me to be their CONTENT CREATION SLAVE is beyond insane.

I have also posted online for months now that I knew they were trying to use the new neighbor (the son of my direct competitor to my graphic design company and he moved next to me with my logos and

intellectual property on his vehicles and on his car cleaning business) to frame me up and act like they are the victims when I can prove they are doing cyber stalking and stealing anything they want from my site and even copied my logo and my quasi logo (my social media avatar) and used them for their companies. I can prove this pattern with around 40 local people / businesses and around 500-1000 online companies and channels that have stolen my business content / Intellectual property and used it for their business. I have looked it all up and none of it is legal. Its not just copyright infringement going on either, its real world gang crimes and organized crime ring crimes.

I have attached many PDF files outlining the whole scenario of what is going on from start until now.

If you look at www.hawkx.xyz there is a bunch of info on there. Or you can go to https://rico.hawkx.xyz and ill have a link on there for the criminal case. Or here is the link directly.

Here is a link to my 3 hour deposition explaining what has gone on in this whole scenario over the last 4 years.

Sincerely,
