Cease and desist letters / verbal – formal and informal

1. Local neighbors, family, sheriff - all received verbal informal and formal cease and desist notices, then both received a formal cease and desist letter or email
2. Online Youtube Channels – Around 100-200 smaller youtube channels, news channels, and tarot channels all got an informal and formal verbal (live chat with their recognition of said C&D, and comments on the videos with my IP in them). 8 Of the main kingpins have received a formal email version of the C&D and a few have even recognized it.
3. I posted around 30 C&D's formal early version of a cease and desist but still formal on my social account around 20 months ago, knowing they all could see them because they are cyberstalking me for over 2 years now. I even have proof a bunch of them did see them cause the STOLE FROM THOSE LETTERS I POSTED AS WELL…
4. We have called all the major broadcast channels and given them a formal verbal C&D
5. We have sent google and Verizon a formal cease and desist as well, to their legal depts and more.
