Evidence of Stalking / Cyber Stalking / Espionage / Illegal Wiretap

I think there is still a half a dozen to a dozen more bullet points I have forget for the moment.

1. **Stalking**
    a. Showing up at places im going, just before or right after
    b. Driving by my house and sometimes even engaging with me when im outside, especially since I put out my business sign and then even more since I put extra parts on it that say things like “human trafficking” “Organized crime ring” “Corrupt Sheriff / Officals” “Mentally Ill stalkers thieves” “Terrorism Alert”….. I have received a lot of hate from the neighbors and drivers by, walkers by and new move in neighbors at 1281 and 1295 thomas. (Across the street)
    c. Walking / Running by my house like a cia operation agent or fbi agent would do
    d. Loitering around my sign walking back and forth, letting me know they don’t like my sign. I’ve repeatedly invited them to sue me if im wrong and/or “crazy”… Still no suits levied against me… only the fabricated charges by JCSO and JC DA cause they know its SUBVERTS THE LAW, MY CIVIL RIGHTS, AND PRETTY MUCH EVERYTHING. Gaming the system while they are the system…
    e. Neighbors coming outside in my view shortly (30-90) seconds after I come outside
    f. Homages / copycat / quasi theft in windows, on cars, (dream catcher / Uber / blue rims, and more etc)
    g. Copying what I wear for clothes, hats, styles, etc
    h. Moving here with images, text, logos copied from my business website (direct competitor)
    i. Filing false police reports repeatedly about me when I am not the one committing crimes, it’s the same things as the main online youtube gang, always trying to frame me up with their fake stories and words and fraud “Old” videos etc.
    j. Animal Abuse - Attacking the dog they stole from me years ago, by breaking her back cause they knew I wanted to get her back cause of the mistreatment and abuse that was going on, also for some sick way to get at me and try to get me to “crash out” and more. Its literally a mental illness that needs to be dealt with.
    k. Trying to play music they know is stolen from me when they come outside
    l. Leaving / or showing up at the same time as me or when I have people coming to buy my stuff from online local markets like facebook
    m. Stalking me from facebook into real life with buying items from me, and/or saying they are interested just to flake after they used some of the same words I can prove the rest of the online youtube stalkers were stealing from me at the same time, even using words stolen from my song I had posted days before among other smoking guns on that

n. Remax sales of the houses were meant to be a cover story to bring your stalkers around to “play in my face” and ultimately just as I called out in my private recordings and online as it was happening that It was obvious that’s what was going on.

o. Moving in around me to stalk me and frame me up (LA Car, Sign Dude) among others that I can prove in the gang and moved in within the last 3 years are part of it also,

p. Getting old friends to show up at the store im at, or getting them to show up at my house after 15 years of not seeing them, and shortly after I mentioned their name in private.

2. **Cyber Stalking**

a. Using / copying text (writing) (some copyrighted, some things are public domain on my sites too) they copy / steal / parrot / mirror all of it. Both my copyrighted works and “grey area” (unfair business advantage) I have thousands of examples of this

b. Using / copying Images I use on my sites, posts, etc, or using SIMILAR IMAGES / THEMES Etc. (like I post a fire phoenix and 1 hour to 21 days later, they post a fire phoenix but a different version from mine) I have thousands of examples of this

c. Copying from my video titles, video content, themes, talking points, and even verbatim or in part. Sometimes they do current dates on the videos, posts, etc of their and sometimes they use fake “old” dates with the help of youtube/google and other tech companies’ sites involved in the copyright theft / fraud / stalking / espionage

d. Homages to things I post or put on my websites, themes, movies or clips I reference in posts.

e. Using / copying text (written works) off my website rico, whitesands that is purely sites I setup to document their crimes and expose them

f. Using / Copying text (written works) from my comments on youtube videos, social posts, live chat on live videos, etc

g. Copyright Infringement of my songs (all of them) stolen in whole and hacked up and spread out in their songs / movies etc.

h. Copyright infringement of my posted audio comedy bits

i. Following me into live videos / live chat on youtube, all day, everyday.

3. **Espionage / Illegal Wiretap**

a. Using / copying my private life, private story daily everyday, in their videos, written works, books, movies, songs, motivational, “news”, and much more etc.

b. Using / copying my private name, dogs names, family names, business names, song names, and names that are associated with me like “ton def” a nickname, “hawks podcast”, and around 500+ more examples I can prove of that

c. Online gang members copy what I wear, hats, themes, etc

d. Online gang members also wear things that look just like the things im selling on facebook and have reason to believe the ones who are stalking me on facebook are the same ghetto crip “tarot readers” and smaller news channels and some bigger names I figure too

e. Using / Copying my private recordings (dictation and such) but not by getting in on my devices, I can prove its real time INTERCEPTED by way of illegal wiretap

f. Homages to what I watch in private, whether it’s a private offline movie im playing or a online movie they do both.

g. Local stalkers using / copying my private words (on camera) said back to me the same as the online youtube gang, local sheriff deputies, and fbi channel and director kash patel. Not just once or twice or 3 times either. 6 instances or more I can prove on most. Online its in the tens of thousands of instances I can prove of the very same private words being in the mouths of online youtube channels from other states, local stalkers, local sheriff, fbi director and much more

h. Copying what I wear, hats, themes, etc.

i. Homages in their windows, cars, on their cars etc that are from PRIVATE THINGS only someone cyberstalking / espionage on me would know (matt at sams house 1290 thomas)

j. Local stalkers have reacted to things I said I was going to do or said they messed up on in their fraud / theft / stalking / espionage etc. I can also prove the online youtube gang with my stolen intellectual property has done the same thing, reacted in their next video or changed up how they do their fraud and theft and stalking etc.

k. Online stalkers have been caught reacting to things I say, watch, do, etc while in my house around my phone.

l. Online stalkers have been caught real time on live videos using / copying my private words, works, shortly after me saying them. From 3 seconds later to 15 minutes later.

m. Online youtube gang have been caught saying private things about me and even my name while connecting it to specific things from my private life that only someone spying me 24/7 would know.

n. Theft off my laptop of a song or a couple songs among others things like knowing everything I do online, and

o. Cyber stalking aided by espionage of my data. I can prove they stalk me on youtube in the sense that when I join a live video they join the live video. They also made the stalkers “mods” meant to do what they did which is they blocked and banned my comments on live or not live videos, or they just hid them. I would post them and refresh the page and the comment was gone.
