A list of the kingpins involved in the organized crime ring attacking me, spying on me, stalking me, robbing me and doing massive fraud to cover it up. I have proof to back my claims, Some have a small amount of data points to prove it, most have approximately 10-100+ smoking gun evidence plus tons of circumstantial evidence. For the most part, none of my cases are “loose”… They do range in size from small to large though on the amount of crimes each one has committed on me.
