A list of the services we provide and the offers we can give for payment of your attorney services. You can also check out our website at https://efx.jesterprime.com or https://services.jesterprime.com/cat

The website is not all the way complete as I have a lot of projects going at once as I setup this part of my business too. I went to college for these services as well, I can show more examples of my work and portfolio upon request. Please bear in mind we are in the process of finishing up the websites and any of the links that might not work. We have been waiting to finish the sites and put our intellectual property into the website after we get a lawyer on board or file restraining orders on the people stalking, spying, stealing my property. I will have hawkx ready for launch within 2 months and jesterprime the same time frame.

What we can offer in the area of a percentage of our lawsuit judgement or percentage of our business.

1. We can offer a large percentage of the lawsuit judgment, only on the first lawsuits, then ill pay up front for the rest. The percentage would be discussed to see if we can agree on a percentage. I would be open to splitting it 50/50
2. We can offer a percentage of our business JESTERPRIME. That includes our services business, our cards and invites, our music, movies, games, local ad maps, tarot genie, our comedy with jesterprime, and we will be adding more as we move forward and would all be in the same deal. As for the percentage number we would have to discuss terms, what you will provide to me then how much you want and I would either accept or counter offer.
3. We could also offer a stake in our big tech rival business (HAWKX) that is a big part of why they are robbing me and attacking me, it's a social media platform, video host platform, marketplace, search engine, browser, email, directory, file host, bnb host, food delivery

host, ticket sales, booking host, archive, maps, among other things and more to come. The percentage and what you are offering would have to be discussed first.
